“Quality is not an act, it is a habit.” –Aristotle

Dyeing & Finishing

Our company has been well associated with Hi Quality Dyeing factories. Dye houses are well equipped with imported HTHP Soft flow machines to dye a capacity of 5000 kgs per day.

Fabric meets all the standard requirements of REACH and as needed by customer. Raising the loopback fabric to get brushed fabrics, peach finish, all kinds of garments washings, etc.,

Compacting is a must for all fabric and are done on TUBETEX machines to get the best possible dimensional stability and control the GSM.

Printing

PRINTING AND EMBROIDERING

The fabrics are printed in the modernized & latest printing machines. Position print, all over print on rotary machines, transfer prints and sublimation can be done. Different type of inks used are pigment, non-pvc plastisol, reactive, discharge, hi-build, puff, glitter, shimmer, etc.,

Embroidery

State-of-the-art multi head embroidering machines are used for our embroidery needs.

We are doing all kinds of design on the fabric, applique vintage design, metallic thread design, sequins, all over embroidery, etc.,

CUTTING

Our cutting capacity is 10000 tee per day. We have straight knife and band knife to get the right shape. Manual cutting is used when needed.

SEWING

We have 100 sewing machines with different attachments to sew different kinds of fabric and workmanship.

CHECKING

We have skilled and experienced checkers with an expertise of checking garments to the required AQL standards. The team ensures the quality before passing it to finishing section.

FINISHING & TESTING

8 Vacuum tables with steam presses gives the final touches to the garment.

Our packing team make sure that the garments are packed as per the method defined by the customer.

We have In-house LAB facilities for the basic testing procedures and also test are conducted with reputed testing agencies like SGS, Intertek, BV, etc., as per customer instructions.
